- 10 Forgiveness of a first or second draw PPP loan
- 11 Covered period for first and second draw loans
- 11 Prorating of \$100,000 limit on compensation
- 12 Simplified forgiveness for loans of \$150,000 and less first draw and second draw loans
- 12 Impact of EIDL advances on PPP forgiveness
- 13 Tax deductibility of PPP expenses
- 13 Ability of PPP borrowers to use Employee Retention Credits
- 14 Calculating decline in revenue for second draw borrowers not in operation all of 2019 or began operations in 2020
- 15 Descriptions of new categories of eligible costs for PPP forgiveness

On December 27, 2020, the Economic Aid to Hard-Hit Small Businesses, Nonprofits and Venues Act (the Act) became law as a part of the Consolidated Appropriations Act, 2021. The Act provides \$284.5 billion of additional funding for the Paycheck Protection Program (PPP) through the U. S. Small Business Administration (SBA). The following is a review of key provisions of the PPP after enactment of this legislation.

The SBA issued guidance January 6, 2021 and forms January 8, 2021 that have been incorporated into this summary:

Interim Final Rule on Paycheck Protection Program as Amended by Economic Aid Act
Interim Final Rule on Second Draw Loans (Second Draw IFR)
Borrower Application Form Revised January 8,

2021

Second Draw Borrower Application Form

Please refer to official SBA and U. S. Treasury <u>guidance</u> on the program for additional information.

Additional information is available in the AICPA's Frequently Asked Questions and other resources the AICPA and it's Private Companies Practice Section (PCPS) have developed at www.aicpa.org/sba. Additionally, the AICPA Town Hall Series provides the latest news and updates on PPP and other business relief programs.

Key dates

The SBA will begin accepting applications from certain lenders on January 11, 2021. Applications from all lenders are anticipated to be accepted on or around January 18, 2021.

Applications for PPP loans must be received by the SBA by March 31, 2021.

Disclaimer: The AICPA anticipates making updates to the contents of this resource to incorporate future changes related to the PPP process, AICPA Professional Standards, and best practice recommendations, as necessary. These resources do not establish standards and are not a substitute for the original authoritative guidance. This document has not been approved, disapproved or otherwise acted on by an AICPA senior committee. It is provided with the understanding that the staff and publisher are not engaged in rendering legal, accounting or other professional services. All such information is provided without warranty of any kind.

Approach and Strategies

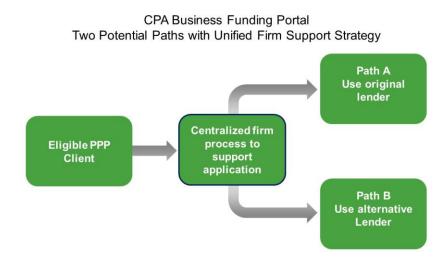

As mentioned on our <u>AICPA Town Hall Series</u>, firms need to approach PPP2 differently than they did PPP1. This starts with streamlining clients' PPP applications through one centralized platform, enabling your firm to deliver greater value, efficiency, and effectiveness around the PPP process.

Through the <u>CPA Business Funding Portal</u> (CPALoanPortal.com), which is a free solution, you can manage all your clients' PPP applications in one place. The solution also offers clients the ability to receive business relief funding directly through the portal with fintech lender Biz2Credit.

Regardless of whether your clients decide to use a traditional lender (such as a bank) or a fintech like Biz2Credit, you can have oversight of the PPP application process through the portal.

Borrowers may use their lender of choice. This could be their original PPP lender or a new lender. We recommend firms have a centralized approach to support both paths. <u>Learn more</u> about how The CPA Business Loan Portal can help meet your clients' unique lending needs.

If you use the CPA Business Funding Portal to submit applications to the SBA, you are eligible to receive agent fees as a paid subscriber.

For entities that did not receive a previous PPP loan and are receiving their first draw in 2021

Eligibility

Eligible entities who did not receive a first draw PPP loan in 2020 may now apply under the same basic terms as the previous round. The following entities may be eligible if they were in operation on February 15, 2020:

- Any business, 501(c)(3) non-profit organization (including faith-based organizations), 501(c)
 (19) veterans organization, or Tribal business concern (sec. 31(b)(2)(C) of the Small Business Act) with:
 - No more than 500 employees, or
 - Meets the SBA industry size standard
- Sole proprietors, independent contractors, and self-employed persons
 - Note: Partners in a partnership do not qualify for a PPP loan but the partnership entity may qualify.
- Any business with a NAICS Code that begins with 72 (Accommodations and Food Services) that has more than one physical location and employs less than 500 per location

Additionally, new categories of borrowers have been added via the Act:

- 501(c)(6) nonprofits (such as chambers of commerce) with 300 or fewer employees (subject to lobbying threshold: 15% of receipts, 15% of activities, \$1M lobbying costs)
 - Professional sports leagues and organizations with the purpose of promoting or participating in a political campaign or other activity are not eligible.
- Destination marketing organizations with 300 or fewer employees (subject to lobbying threshold: 15% of receipts, 15% of activities, \$1M lobbying costs)
- Local newspapers, TV and radio stations (NAICS code beginning with 511110 or 5151) that
 make a good faith certification that PPP will be used to support expenses at the component
 of the organization that produces or distributes locally focused or emergency information
- Housing cooperatives with 300 or fewer employees

The following is a partial list of ineligible entities, which includes some added via the Act and subsequent guidance:

- · An entity that has permanently closed
- Businesses not in operation on February 15, 2020 (Note: PPP is designed for entities in operation prior to the COVID-19 pandemic.)
- Entities receiving Shuttered Venue Operator Grants such as theaters, museums and zoos.
- This program, described in Section 324 of the Act, is not open as of January 10, 2021.

- · Publicly traded businesses
- Lobbying organizations
- · Hedge funds or private equity firms
- · Entities affiliated the People's Republic of China
- Those registered under the Foreign Agents Registration Act
- If President, Vice President, head of an Executive department, Member of Congress or their spouse own at least 20% of any class of equity
- Entities listed in 13 C.F.R 120.110, unless otherwise made eligible (page 85)
- Household employers
- Entities in bankruptcy
- Other

Details on eligible and ineligible entities are provided in the <u>Interim Final Rule on Paycheck Protection Program as Amended by Economic Aid Act</u> and should be consulted for additional information.

Amount of loan for first draw borrowers

First draw loans for borrowers with employees are calculated as 2.5 times average monthly payroll costs, up to \$10 million.

- Average monthly payroll costs can be based on calendar 2019, calendar 2020 or the 12-month period prior to loan application.
 - Average monthly payroll is adjusted for items such as compensation paid to an employee in excess of \$100,000 on an annualized basis, compensation to non-US residents, and other adjustments.
 - Payroll includes gross wages and tips; employer contributions to employee group health, life, disability, vision and dental insurance; retirement contributions; and state and local taxes assessed on employee compensation (i.e. SUTA).
- For seasonal employers the loan amount is based on 2.5 times the average monthly payroll costs for any 12-week period between Feb. 15, 2019 and Feb. 15, 2020.
 - A seasonal employer (1) operates for no more than seven months in a year, or (2) earned no more than 1/3 of its receipts in any six months in the prior calendar year.
- Entities that did not exist for the full one-year period before Feb. 15, 2020, should calculate the maximum loan amount based on 2.5 times payroll cost paid or incurred as of the date of the application divided by the number of months costs were paid or incurred.
- See "How to calculate maximum loan amounts by business type" guidance issued by SBA.

- Businesses that are part of a single corporate group are limited to no more than \$20,000,000 of first draw PPP loans.
 - (1) Applies to entities that are majority owned, directly or indirectly, by a common parent

Self-employed borrowers who file a Form 1040, Schedule C and are applying for a first draw will also be able to borrow 2.5 times their average monthly net profit based on line 31 of their 2019 or 2020 Schedule C. Net profit for this calculation is capped at \$100,000.

A change enacted by the Act allows farmers and ranchers who file a Form 1040, Schedule F to use 2019 or 2020 gross income from line 9 rather than net income. Gross income for this calculation is capped at \$100,000. Per the IFR referenced above, employee payroll costs are subtracted from the farmer's or rancher's gross income to avoid double-counting amounts that represent pay to the employees of the farmer or rancher.

First draw borrowers who received an Economic Injury Disaster Loan (EIDL) between January 31 and April 3, 2020 can refinance the outstanding amount into the PPP loan at the time of the PPP loan application, if they choose to do so.

This does not include EIDL emergency advances, only the EIDLloan.

For entities that previously received a PPP loan (second draw)

The Act provides an opportunity for eligible hard-hit borrowers to receive a second PPP loan. The loans are available to entities with a 25% reduction in gross receipts and are for borrowers with fewer employees than first draw entities.

Eligibility

The following entities may be eligible if they were in operation on February 15, 2020 and received a first draw previously:

- 300 employees or less (Note: first draw loans are available for borrowers with 500 or fewer employees)
 - This is based on headcount and includes all full- or part-time employees.
- 25% reduction in gross revenue between comparable quarters in 2019 and 2020 (Note: this is not a requirement of first draw loans)
- Has used or will use all first draw PPP funds (including the amount of any increase of a first draw) on eligible expenses on or before expected date of the second draw loan disbursement
 - The SBA will require lenders to delay funding the second draw until the borrower has fully used all of the first draw funds. For the second draw application, the borrower will be required to attest that they have used or will use the full amount of the first draw funds on eligible expenses. This may include a requirement that the borrower has spent at least 60% of first draw funds on payroll costs.

A second draw may be approved but for it to actually be received, the borrower will need to certify that the first draw funds have, in fact, been used.

It is **not a requirement that forgiveness** of the first loan has been applied for or been received.

- For business with NAICS code 72 (such as hotels and restaurants), business must have 300 or less employees per physical location.
- · Same affiliation rules apply as with the first draw.

Entities ineligible to receive a first draw are also ineligible to receive second draw. See list of ineligible entities above.

Amount of loan

Second draw loans for borrowers with employees are calculated as 2.5 times average monthly payroll costs, up to \$2 million. Borrowers with a NAICS code that begins with 72 (such as hotels and restaurants) are eligible for loans up to 3.5 times average monthly payroll costs.

- Borrower can choose to calculate average monthly payroll based on 2019, 2020 or the 12-month period prior to when the loan is made.
 - (1) Average monthly payroll is adjusted for items such as compensation paid to an employee in excess of \$100,000 on an annualized basis, compensation to non-US residents, and other adjustments.
 - (2) Payroll includes gross wages and tips; employer contributions to employee group health, life, disability, vision and dental insurance; retirement contributions; and state and local taxes assessed on employee compensation (i.e. SUTA).
- For **seasonal employers** the average monthly payroll costs are calculated based on any 12- week period between Feb. 15, 2019 and Feb. 15, 2020.
- For entities that did not exist for the full one-year period before Feb. 15, 2020, average monthly payroll costs are calculated as payroll cost paid or incurred as of the date of the application divided by the number of months costs were paid or incurred.

The following loan amount factors are specific to second draw loans and differ from a first draw loan:

- Borrowers cannot include a refinancing of an EIDL loan in a second draw.
- There is a limit of \$4,000,000 in the aggregate for second draw PPP loans for businesses that are part of a single corporate group.
 - (1) Applies to entities that are majority owned, directly or indirectly, by a common parent

Self-employed borrowers who file a Form 1040, Schedule C will also be able to borrow 2.5 times (or 3.5 times for NAICS codes beginning with 72) their average monthly net profit based on line 31 of their 2019 or 2020 Schedule C. Net profit for this calculation is capped at \$100,000.

Farmers and ranchers who file a Form 1040 Schedule F can use 2019 or 2020 gross income from line 9 rather than net income. Gross income for this calculation is capped at \$100,000. Per the Second Draw IFR, employee payroll costs are subtracted from the farmer's or rancher's gross income to avoid double-counting amounts that represent pay to the employees of the farmer or rancher.

Calculating decline in gross receipts

- For borrowers in operation all four quarters of 2019, compare gross receipts during the first, second, third, or fourth quarter in 2020 to the same quarter in 2019 to determine if there was a 25% or greater revenue reduction.
 - For example, an applicant that had gross receipts of \$50,000 in the second quarter of 2019 and had gross receipts of \$30,000 in the second quarter of 2020 experienced a 40 percent revenue reduction between these two quarters.
- The SBA has stated that **only calendar quarters** are to be used for this calculation.
- Borrowers can choose to use annual 2020 gross receipts compared to 2019 to simplify the calculation. Annual tax forms will be required to substantiate the decline.
- For borrowers **not** in operation all four quarters or who began operating in 2020 (prior to February 15, 2020), see the calculation periods later in this document.

What is included in gross receipts?

- Guidance issued in the Second Draw IFR defines gross receipts as all revenue in whatever form received or accrued (in accordance with the entity's accounting method) including:
 - Sales of products or services
 - Interest, dividends, royalties
 - Rents
 - Fees or commissions
 - Reduced by returns and allowances
- Gross receipts do not include the following: net capital gains or losses; taxes
 collected for and remitted to a taxing authority if included in gross or total income
 (such as sales or other taxes collected from customers and excluding taxes levied on
 the concern or its employees); proceeds from transactions between a concern and its
 domestic or foreign affiliates; and amounts collected for another by a travel agent, real
 estate agent, advertising agent, conference management service provider, freight
 forwarder or customs broker.
 - First draw PPP loans and EIDL loans/advances are excluded from gross receipts.
 AICPA has asked for clarification as to whether other relief funds, such as Provider Relief Funds, Higher Education Emergency Relief Funds, state and local grants, etc. should be included.
- For an eligible nonprofit organization, a veterans organization, an eligible nonprofit
 news organization, eligible 501(c) organization, or eligible destination marketing
 organization, gross receipts has the meaning in section 6033 of the Internal Revenue

What does "in accordance with the entity's accounting method" mean?

Use the standard accounting method of the borrower - cash, accrual, tax basis, etc. The key is to use the same method for the 2019 comparative period as you're using for 2020.

Code of 1986.

 For nonprofits this includes: contributions, gifts, grants, dues or assessments, sales or receipts from unrelated business activities, sale of assets, and investment income (e.g., interest, dividends, rents, and royalties).

AICPA has asked for clarification on whether restricted donations are included.

- · Gross receipts are not reduced for any associated costs or expenses.
- The calculation of gross receipts of affiliates is outlined in <u>Second Draw IFR</u>: Who is eligible for a Second Draw PPP Loan?

Documentation Requirements

For loans greater than \$150,000, documentation of revenue reduction is necessary at the time of the loan. Documentation may include relevant tax forms, including annual tax forms, quarterly financial statements or bank statements.

For loans of \$150,000 or less, documentation is not required with the loan application, but will be required with loan forgiveness application.

Other documentation requirements as to payroll costs will vary depending on whether the borrower is using the same payroll information as the first draw application and the same lender.

Provision to modify the amount of a first draw

If a borrower received their first draw PPP loan prior to December 27, 2020, the loan amount for the first draw can be increased if changes in guidance result in an increased original loan amount. For example, seasonal employers and farmers and ranchers may be eligible for an increased first draw loan.

In addition, the following borrowers can reapply or request an increase in their first draw PPP loan amount if forgiveness has not been obtained:

- a. If a borrower returned all of a PPP loan, the borrower may reapply for a PPP loan in an amount the borrower is eligible for under current PPP rules.
- b. If a borrower returned part of a PPP loan, the borrower may reapply for an amount equal to the difference between the amount retained and the amount previously approved.
- c. If a borrower did not accept the full amount of a PPP loan for which it was approved, the borrower may request an increase in the amount of the PPP loan up to the amount previously approved.

As of January 10, 2021 the process for these increases in first draw loans had not been established by the SBA.

Economic necessity certification

Entities applying for a first or second draw are required to certify that "Current economic uncertainty makes this loan request necessary to support the ongoing operations of the Applicant."

The SBA and Treasury provided a safe harbor in <u>Treasury FAQ #46</u> published May 13, 2020 providing that any PPP borrower, together with its affiliates, that received PPP loans with an original principal amount of less than \$2 million will be deemed to have made the required certification concerning the necessity of the loan request in good faith.

Forgiveness of a first or second draw PPP loan

Borrowers can qualify for forgiveness of PPP loans up to the full principal amount of the loan and accrued interest if the loan proceeds are used for forgivable purposes during the borrower's covered period and employee and compensation levels are maintained or, if not, an applicable safe harbor or exemption applies. Additionally, at least 60 percent of the PPP loan proceeds are required to be used for payroll costs to achieve full forgiveness of the loan.

Costs eligible for forgiveness include:

- Payroll costs (or owner income replacement for self-employed borrowers)
 - Payroll costs used in determining the Employer Retention Credit are not eligible for loan forgiveness
 - The Act expands allowable payroll costs to include group insurance payments for vision, dental, disability and life insurance.
- Mortgage interest incurred before February 15, 2020
 - Mortgage interest paid to related parties is not eligible for forgiveness.
- Rent on leases dated before February 15, 2020
 - Rent to related parties is subject to limitations based on the amount of mortgage interest the related party pays during the covered period.
- Utilities for service that began before February 15, 2020
- Covered operations expenditures*
- Covered property damage costs*
- Covered supplier costs*
- Covered worker protection expenditures*

* The Act added these additional costs that are eligible for forgiveness. Explanations of these costs are provided at the end of this document.

The additional categories of eligible expenses can be used in determining the amount of costs for any PPP loans (whether first draw or second draw) if the loan hasn't already been forgiven.

Generally, a reduction in the number of employees or the rate of pay affects the forgiveness of the loan.

- If a borrower decreases salaries and wages by more than 25% for any employee who made less than \$100,000 annualized in 2019, loan forgiveness will be reduced.
- If the number of FTEs decreases, loan forgiveness will be reduced.
- Safe harbors and exceptions are available in some circumstances.

There are detailed provisions regarding these forgiveness reduction items that are reviewed in other resources available at www.aicpa.org/sba.

Covered period for first and second draw

The Act allows borrowers to select their loan forgiveness covered period. The covered period begins on the date the loan proceeds are disbursed and ends on any date the borrower chooses that is between 8 weeks and 24 weeks after the covered period begins.

Because of this flexibility in the covered period, the alternative payroll covered period established for prior first draw loans is no longer needed.

Prorating of \$100,000 limit on compensation

The Act specifies that the \$100,000 compensation limit for owners and employees is to be prorated based on the length during which the compensation is paid or incurred. For example, if a covered period of 12 weeks is chosen by the borrower, the maximum amount of employee compensation eligible for forgiveness is calculated as \$100,000 divided by 52 weeks multiplied by 12 weeks (\$23,077).

Note: Owner compensation eligible for forgiveness is limited to \$15,385 for an 8-week covered period and \$20,833 for a 24-week covered period. The SBA is expected to release additional guidance on the forgiveness process soon and may address this in more detail. See AICPA FAQs for definition of an owner for PPP purposes.

Simplified forgiveness for loans of \$150,000 and less for first draw and second draw loans

The Act provides a simpler forgiveness application process for loans of \$150,000 or less. Previously SBA had provided Form 3508S to streamline the forgiveness of loans of \$50,000 or less.

As of January 10, 2021, the SBA has not provided the forms for this new simplified forgiveness threshold. However, according to the Act, the following is expected to be required of the borrower:

- Sign and submit a one-page form
- · Attest to complying with PPP requirements
- · Report loan amount
- · Report number of employees retained
- Report estimate of loan amount spent on payroll
- · Retain records
 - 4 years for employment
 - 3 years for other
- Will be required to provide documentation to substantiate loss of revenue when apply for forgiveness of a second draw loan

As with any PPP loan, the SBA may review and audit PPP loans of \$150,000 or less and access any records the borrower is required to retain.

Impact of EIDL advances on PPP forgiveness

In welcome news for borrowers who also received an EIDL advance, the Act eliminates the requirement that EIDL advances be subtracted from PPP loan forgiveness. The SBA has indicated that any EIDL advance amounts previously deducted from a borrower's forgiveness will be remitted to the lender, along with interest.

Tax deductibility of PPP expenses

The Act also provides welcome news for borrowers by stating that for federal income tax purposes, expenses paid with a PPP loan are deductible if otherwise eligible. The forgiveness of the PPP loan is not taxable either.

The IRS issued Revenue Ruling 2021-02 on January 6, 2021 acknowledging the Act.

An AICPA Journal of Accountancy article discusses PPP basis issues as a result of this treatment.

Ability of PPP borrowers to use Employee Retention Credits

The Act provides additional relief to entities by allowing the use of both PPP loans and Employee Retention Credits (ERC). ERC allows eligible entities to receive a refundable payroll tax credit on qualified wages. This provision is retroactive to 2020. However, a borrower cannot use the same wages for PPP and ERC.

Many borrowers may be able to qualify for full forgiveness of their PPP loan using only payroll costs. However, because the Act makes ERC available to PPP borrowers, utilizing non-payroll costs for forgiveness (subject to the 60-40 payroll requirement) may provide access to ERC. A discussion of ERC is outside the scope of this resource and guidance from the IRS is needed. The AICPA is actively developing resources to assist entities in understanding how to apply for these credits.

Calculating decline in revenue for second draw borrowers not in operation all of 2019 or began operations in 2020

Per Second Draw IFR: Who is eligible for a Second Draw PPP Loan? PPP loan recipients seeking a Second Draw must demonstrate at least a 25% reduction in gross receipts, measured as follows:

- Applicants in operation in Q1, Q2, Q3, and Q4 2019 may select any quarter and compare with the same quarter in 2020.
- For applicants not in operation in Q1 or Q2 2019, select either Q3 or Q4 2019 and compare with the same quarter in 2020.
- For applicants not in operation in Q1, Q2 or Q3 2019, select Q4 2019 and compare with Q4 2020.

- For applicants not in operation in 2019 but in operation as of Feb. 15, 2020, select Q1 2020 and compare with Q2, Q3, or Q4 2020.
 - Note: entities must have been in operation on or before February 15, 2020 to be eligible for PPP loans.
- Applicants in operation in all four quarters of 2019 may compare with all four quarters of 2020.

Descriptions of new categories of eligible costs for PPP forgiveness

As noted previously, the Act added additional costs that are eligible for forgiveness. The Act and supporting SBA guidance define these costs as:

Covered operations expenditures: payments for any business software or cloud computing service that facilitates business operations, product or service delivery, the processing, payment, or tracking of payroll expenses, human resources, sales and billing functions, or accounting or tracking of supplies, inventory, records and expenses.

Covered property damage costs: costs related to property damage and vandalism or looting due to public disturbances that occurred during 2020 that was not covered by insurance or other compensation.

Covered supplier costs: expenditures made by a borrower to a supplier of goods for the supply of goods that

- A) are essential to the operations of the borrower at the time at which the expenditure is made; and
- (B) is made pursuant to a contract, order, or purchase order—
 - (i) in effect at any time before the covered period with respect to the applicable covered loan; or
 - (ii) with respect to perishable goods, in effect before or at any time during the covered period with respect to the applicable covered loan.

Covered worker protection expenditures: operating or a capital expenditures to facilitate the adaptation of the business activities of an entity to comply with requirements established or guidance issued by the Department of Health and Human Services, the Centers for Disease Control, or the Occupational Safety and Health Administration, or any equivalent requirements established or guidance issued by a State or local government, during the period beginning on March 1, 2020 and ending the date on which the national emergency with respect to the COVID-19 expires related to the maintenance of standards for sanitation, social distancing, or any other worker or customer safety requirement related to COVID-19.

Such expenditures may include—

(i) the purchase, maintenance, or renovation of assets that create or expand—(I) a drive- through window facility; (II) an indoor, outdoor, or combined air or air pressure ventilation or filtration system; (III) a physical barrier such as a sneeze guard; (IV) an expansion of additional indoor, outdoor, or combined business space; (V) an onsite or offsite health screening capability; or (VI) other assets relating to the compliance with the requirements or guidance described in subparagraph (A), as determined by the Administrator in consultation with the Secretary of Health and Human Services and the Secretary of Labor; and (ii) the purchase of—(I) covered materials described in section 328.103(a) of title 44, Code of Federal Regulations, or any successor regulation; (II) particulate filtering facepiece respirators approved by the National Institute for Occupational Safety and Health, including those approved only for emergency use authorization; or (III) other kinds of personal protective equipment, as determined by the Administrator in consultation with the Secretary of Health and Human Services and the Secretary of Labor; and

Such expenditures do not include residential real property or intangible property.
